

**The Genuine
Wooden Railway!**

When you give your child a gift from the BRIO® Wooden Railway, you've given a gift with a long, proud tradition of excellence built right in. Because BRIO has been crafting quality wooden products for over a century! Everything in the BRIO Wooden Railway system is designed for durability, and to meet strict child safety standards, too. All Wooden Railway products are appropriate for children three and up—many are safe for children as young as two. This brochure

will help you select the right products for your child. Choose with confidence, because all BRIO products carry a full manufacturing warranty. You'd expect no less from a company that's been on track for over 100 years. Genuine BRIO—the #1 selling Wooden Railway in the world!

Wooden Railway Sets

An easy and engaging way to start your child in the BRIO Wooden Railway system is with a simple set. Because young children like repetition in play, a few trains, track, and a bridge or tunnel are enough. These three sets are suitable for children ages two and up. On pages 10-17, you'll find blueprints for expanding each Wooden Railway set!

33115 Circle Set
17 1/2" x 17 1/2" or 44 x 44 cm

*See page 12 for
expansion blueprints.*

33120 Oval Set
17" x 27" or 43 x 69 cm

*See page 13 for
expansion blueprints.*

33125 Figure 8 Set
17" x 39" or 43 x 99 cm

*See page 14 for
expansion blueprints.*

As your child grows, you'll want to add challenges that further expand the world of Wooden Railway play. The balance and height created by the bridges and supports in these sets are appropriate for experienced engineers ages three and up.

33131 Suspension Bridge Set
20" x 49" or 51 x 125 cm

*See page 15 for
expansion blueprints.*

33134 Tons of Track Set
44" x 48" or 112 x 122 cm

*See page 16 for
expansion blueprints.*

These sets add complexity for advanced engineers ages three and up. The magnets, cranks, and crossings enhance fine motor skills and manual dexterity. Vehicles, trees, and signs allow your child to build more realistic playscapes—and to develop problem-solving skills at the same time!

33143 Draw Bridge Set
31" x 57" or 79 x 145 cm

*See page 17 for
expansion blueprints.*

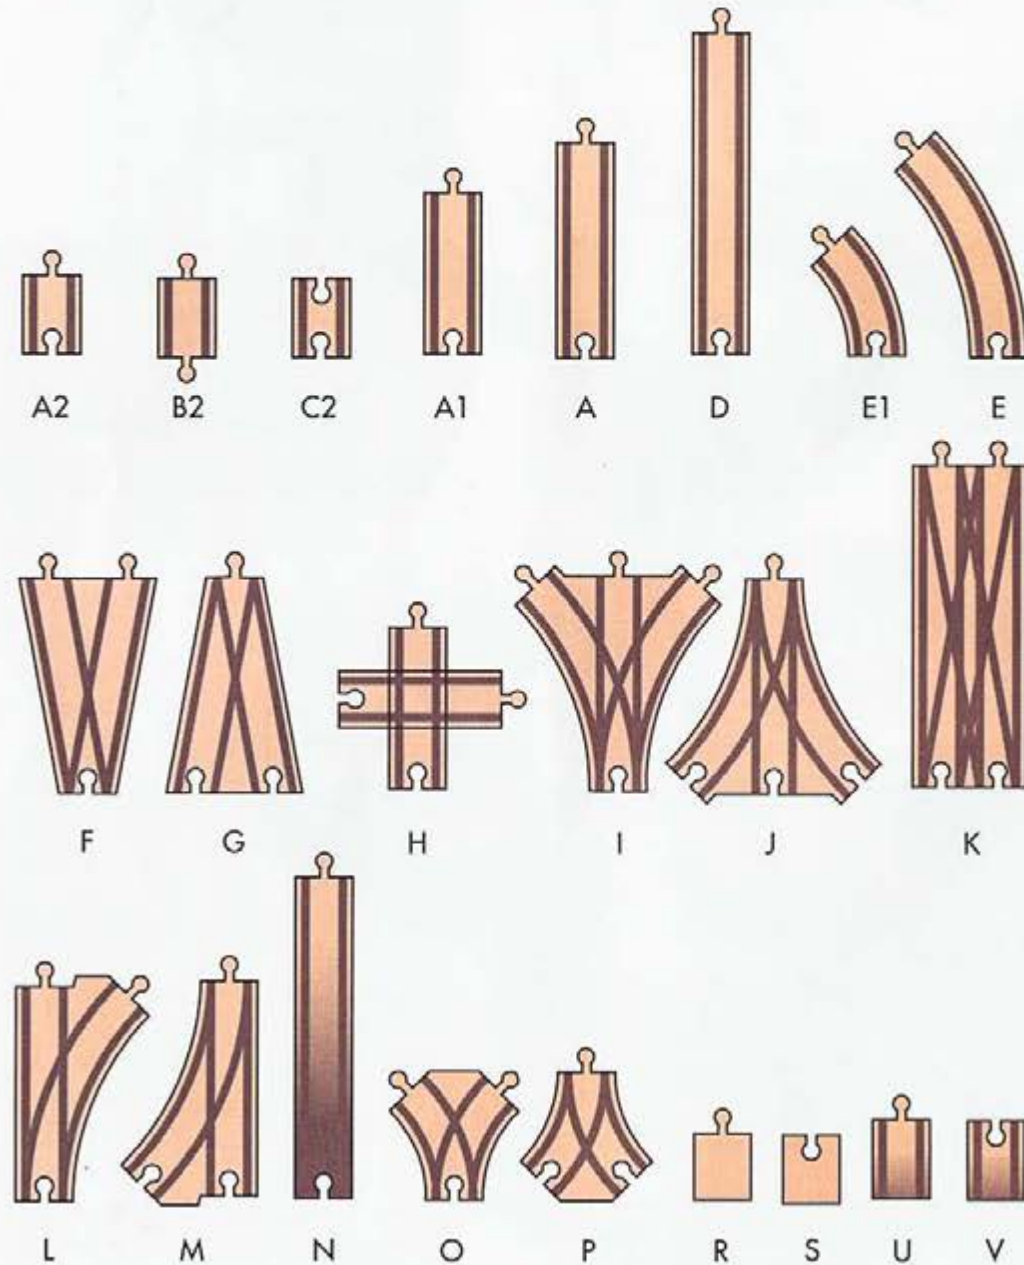

New!

33180 Treasure Chest Set
45" x 27 3/4" or 114 x 71 cm

Expansion Blueprints

The following blueprints show ways to expand several Wooden Railway sets. It's easy to add on, because all track and accessories are compatible! These layouts are only suggestions—there's no one way to build with the Wooden Railway system. It's an open-ended toy that allows your child to play in a unique way!

Because the BRIO Wooden Railway is modular, your child will discover endless ways to create a layout—then rearrange it by substituting equivalent pieces. The chart below will help you choose the best assortment for your child's system. This is only a sampling—your child will discover more interchangeable parts! **Extra tip:** Three straight tracks (D) equal the length of the Lifting Bridge.

Toy Selection Tips

When choosing good toys for your child—including BRIO—it is important to consider these factors:

• Age Appropriateness

All products carry labels to help you select toys that are appropriate for your child's age and developmental stage. To ensure a positive play experience, choose a toy that is labelled for your child's age.

• Safety

Read toy packaging for small parts warnings and heed them. Open the box and examine toys for sharp edges, durability, and securely fastened parts. Remember, even a safe toy can be dangerous in the hands of a child too young to play with it.

• Multiple Uses

Select open-ended toys that your child can play with in different ways—this stimulates the imagination and encourages creativity.
