Genuine BRIO® Wooden Railway

Wooden Railway Sets

Starter Sets. The best way to start your child in the BRIO® Wooden Railway System is with a simple Starter Set. And with BRIO, you have four different choices! The Starter Sets are appropriate for ages three and up. Because young children like repetition in play, a train and track are enough. Switches and an easy-to-assemble bridge provide a higher level of complexity. On pages 14-20 you'll find blueprints for expanding every Starter Wooden Railway Set.

Starter Sets

Your child might be ready for the challenges of the Figure 8 Set. It offers the opportunity to build with a switch *and* a simple bridge.

Starter Figure 8 Set

○ 33025
39" x 20 1/2" or 12 x 45 cm

See pages 19-20 for expansion blueprints.

Intermediate Set

Your train engineer will enjoy challenging play experiences with this Intermediate Set. The more complex bridge and supports in the Suspension Bridge Set encourage your child to explore balance and symmetry. On page 21 you'll find a blueprint for expanding this Intermediate Wooden Railway Set.

Intermediate Suspension Bridge Set

○ 33030
42" x 18" or 115 x 41 cm

See page 21 for expansion blueprints.

Advanced Sets

As your child grows, you'll want to add challenges that further expand the world of Wooden Railway play. These two Advanced Sets include magnets, cranks, bridges and crossings which enhance fine motor and problem-solving skills.

Advanced Land & Sea Set

33035
27 1/4" x 42 1/2" or 108 x 65 cm

See page 22 for alternate layouts.

Expansion Blueprints

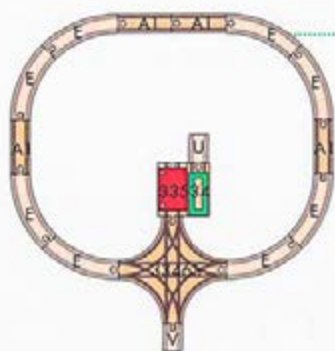

The blueprints on the following pages show ways to expand BRIO's Starter and Intermediate Wooden Railway Sets. Tracks are identified with the abbreviated names outlined below. These layouts are only suggestions—independently, your child will create endless variations. That's because there's no one way to build with BRIO's Wooden Railway System!

Genuine BRIO's system is modular so your child will learn simple math skills while having fun. Understanding track equivalencies will help you choose new pieces for your collection. The chart below shows just a sampling of equivalencies—your child will discover many more. **Extra tip:** Three straight tracks (*D*) equal the length of the Lifting Bridge.

Railway Track & Turntables

Expert craftsmanship and built-in equivalencies are the hallmarks that distinguish genuine BRIO Wooden Railway track. Quick picks to expand your child's set include 33336 and 33340 Expansion Kits.

Starter Tunnels & Bridges

Tunnels satisfy a young child's curiosity when added to railway play because he or she is just learning about object permanence. And, when your child is ready, the easy-to-assemble viaduct is a great first bridge.
